KEY REASONS TO INVEST

Flexible Business Model

We offer our candidates the opportunity to start with a mobile only business and then work towards the full brick and mortar location!

Recession Resistant Business Servicing Recession Resistant Businesses.

Not only is our business an essential business, but we service all of the other essential businesses. Positioning us for a strong and secured future.

Limited Competition in a Fragmented \$3.6 Billion Industry

We are the #1 franchise in the Hydraulic Hose Maintenance and Replacement space. The majority of our competition are small mom-and-pop operations who lack the resources and name recognition that our franchisees experience.

Virtually Unlimited Customer Base

Hydraulic and industrial hoses are everywhere! We work with virtually every industry from manufacturing facilities to heavy equipment operators, to government facilities. The possibilities are endless.

Wide Open Territory in Major Markets

We have white space available in major markets across the United States and Canada.

On Average 21% AUV's from National Accounts

Our national accounts program allows our franchisees to have a customer list built right into their business from day one.

CANDIDATE PROFILE

We are looking for outgoing franchise owners with sales, marketing, operations, and/or management experience, who are results-oriented, can build relationships, lead a team, and are motivated to excel! 90% of owners have never replaced a hose – and never will! B2B and manufacturing experience is a plus but not required.

JOHN DOBELBOWER

VP of Franchise Development

"Someone told me one time that the 'riches are in the niches.' Since I've been at PIRTEK, I see it now! PIRTEK is a niche business with the opportunity to scale into something significant."
